Abstract

The present investigation in to find out the Emotional Intelligence of Secondary School Students in Relation to their gender boys and girls. The sample consisted of 120 secondary school students out of which 60 where boys and 60 where girls. For this purpose of investigation “Emotional Intelligence Inventory” by S.K. Mangal and Shubhra Mangal was used. The obtained data were analyzed through ‘t’ test to know the mean difference between secondary school students in relation to their gender. The result shows that there is no significant difference in Emotional Intelligence of boys and girls, but significant different east and west zone Ahmedabad city. East zone area students high emotional intelligence than west zone area students.

Key Words: Emotional Intelligence, Boys, Girls
